New York City • +1 929 920 7649

henryeraso.dev@gmail.com • [linkedin.com/in/henryeraso](https://www.linkedin.com/in/henryeraso)

Petroleum Engineer at the Industrial University of Santander. I stand out for carrying out projects with great dedication, organization, responsibility and commitment. Despite my lack of experience in the field, I stood out for interpreting the theoretical foundations in the best way. In addition, the work in non-oil work environments has shaped me as someone with communication skills to work in a team and always adapting to the work environment.

COMPETENCIES

1. English B2
2. Portuguese B2
3. Microsoft Office (Excel y Power Point)
4. Scrum Methodology
5. Python Language
6. Javascript Language
7. back-end & front-end developer with emphasis in APIs
8. Machine Learning Knowledge
9. Web Developer Full Stack
10. Adaptability: In all my projects I have always opted for organizational and strategic flexibility in an ever-changing environment.
11. Results oriented: I enjoy setting goals and exceeding performance standards and established deadlines.
